## **FOR-PROFIT BUSINESSES AND NONPROFITS BOTH FACE THE NEED TO PROPERLY FUND THEIR PLANS.**

If it is for buildings, equipment or the expansion of services, the need is the same. The requirement for funding must be presented in a way that those less familiar with the objective can quickly grasp. We have created packages for donors to multi-million dollar capital fund campaigns and prospectus presentations for securing financing and investors for multi-million dollar purchases.

We understand the essential elements involved for presenting a plan to the potential investors or donors that communicates your vision in a compelling way culminating in a clear call to action. We are experienced at creating engaging materials to help leaders cast their vision, present the need and outline the steps needed for involvement. Riverstone Group can collaborate with you to develop and execute a plan to fund your next phase of growth.
